

Functional Requeriments	Class Name	Method Name
Book register	Class Main	registerBook()
	Class Controller	addBook()
Magazine register	Class Main	registerMagazine()
	Class Controller	addMagazine()
Modifying bibliographic resources	Class Main	modifyResource()
Deleting bibliographic resources	Class Main	deleteResource()
User registration	Class Main	registerUser()
	Class Controller	addUser()
Purchase of books	Class Main	buyBook()
	Class Controller	sellBook()
	Class Book	sellBook()
Magazine Subscription	Class Main	suscribeToMagazine()
	Class Controller	suscribeMagazine() stopSuscriptionMagazine()
	Class Magazine	addSuscribeActive()
Viewing bibliographic resources	Class Main	viewLibrary()
	Class Controller	displayLibrary()
	Class Users	displayLibrary()
Simulation of reading sections	Class Main	viewLibrary()
	Class Controller	navigateLibrary()
	Class Users	navigateLibrary() startReadingSession() sortLibraryByPublicationDate()
Report Generation	Class Main	getOptionReports() showMenuReports() executeReportMenuOption()

	Class Controller	generateTotalPagesReadReport() generateReportResourceMoreRead() generateTopReadsReport() generateGenreSalesReport() <u>generateCategorySubsReport()</u> :
Generate Objects	Class Controller	TestInit()
	Class Main	ImportTest()
